## PROFESSIONAL EXPERIENCE

---

## **Freelance Graphic Designer**

Remote | 2024 – 2025

- Delivered 10+ custom design projects for startups, personal brands, and local businesses, consistently meeting client objectives and deadlines
- Created logos, social media content, posters, and branding kits that visually aligned with clients' goals and brand identities
- Utilized Adobe Photoshop, Illustrator, and Canva to produce high-quality digital assets
- Managed end-to-end client communication, revisions, and feedback loops independently, ensuring high client satisfaction
- Demonstrated strong time management and remote collaboration skills while balancing multiple projects simultaneously

## **PROJECTS (SELECTED)**

---

- [GreenLife Wellness Center](#) – Developed a dynamic web application for holistic health management, including secure login, appointment scheduling, client record management, and therapist communication, using HTML, CSS, JavaScript, PHP, and MySQL.
- [LuxeVista Resort](#) – Built a native Android application for a luxury beachfront hotel, enabling room booking, service reservations, user profiles, and local attractions features, with SQLite database integration and interactive UI components.
- [The Paws Shop](#) – Designed an object-oriented Java system for automating pet supply transactions, featuring cashier and manager user roles, login authentication, and file-based data persistence.
- [Mail Com](#) – Created a comprehensive database management system to handle email accounts, messages, attachments, and contacts, implementing structured storage for domains, servers, users, mailboxes, and emails.
- [GreenGrid](#) – Developed a full-stack web application for energy management and monitoring, implementing interactive maps, dynamic data visualization, and server-side APIs using modern web technologies.
